

Speakers:

Prof. Bruno Sangro is the Director of the Liver Unit and Co-Director of the HPB Oncology Area at Clínica Universidad de Navarra in Pamplona, Spain. He is also Professor of Internal Medicine and leads an active research group in the Spanish Network for Biomedical Research on Hepatic and Digestive Diseases (CIBEREHD), focused on therapeutic innovation in the field of liver cancer. He currently serves as Past President of the International Liver Cancer Association.

Michelle Tolley is a UK patient advocate. Infected by blood transfusion in the 1980s and diagnosed with HCV in 2015 she started to support other patients and administrates the support group 'Contaminated Whole Blood UK'. She is also a core participant of the UK Infected Blood Inquiry and has taken an active role in lobbying the government and participating in several working party groups. Michelle developed cirrhosis due to HCV and knows she is at risk of developing liver cancer.
